New interest, new blood and the proper energy is being displayed in the work of the new officers. Drill will begin next week in earnest, as transfer of all ordinances and stores will be made at once. Flagstaff cannot afford to lose this company of the Guard, and our citizens, old soldiers and business men should lend hand and help to keep it popular. Practice marches and field drills will be made as the weather permits. Target practice is ordered as one of the leading things.

## Bright's Disease.

The largest sum ever paid for a prescription changed hands in San Francisco, Aug. 30, 1901. The transfer involved in coin and stock \$112,500.00 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases.

They commenced the serious investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with physicians for judges. Up to Aug. 25, eighty-seven per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address John J. Fulton Company, 420 Montgomery St., San Francisco, Cal.
